

**TECHNICAL SAFETY BC  
FEE SCHEDULE: ELECTRICAL**

| DESCRIPTION   | Effective<br>January 1, 2019   | Effective<br>January 1, 2020   | UNITS          | GST |
|---|--------------------------------|--------------------------------|----------------|-----|
| <b>CONTRACTOR INSTALLATION PERMITS</b>  |                                |                                |                |     |
| <b>Contractor Installation Permits - Single Family Residential</b>  |                                |                                |                |     |
| Permits in this category are applicable for single dwellings only as defined in BC Electrical code, Section 0. For all work not defined within these parameters, the "Contractor Installation Permits - Other" category must be used.   |                                |                                |                |     |
| NOTE: Permit fees include inspections as required. Inspections for non-compliance purposes will be billed on an hourly basis. Please refer to the 'Hourly Rates' section.   |                                |                                |                |     |
| <b>Service installation</b>   |                                |                                |                |     |
| Permit type is valid for all electrical work which involves new home construction including additional branch circuitry if carried out by the same contractor. Permit fees are based on the final rating of each service installation.  |                                |                                |                |     |
| Less than or equal to 125A  | \$ 401                         | \$ 409                         | per permit     | No  |
| 126-200A  | \$ 655                         | \$ 668                         | per permit     | No  |
| 201-400A  | \$ 957                         | \$ 976                         | per permit     | No  |
| Greater than 400A   | \$ 1,335                       | \$ 1,362                       | per permit     | No  |
| <b>Service upgrade or service relocation</b>  |                                |                                |                |     |
| Permit type is valid for all electrical work where an upgrade/modification to the service capacity of the existing installation will be implemented or where the main service panel is relocated (to current code requirements) and includes additional branch circuitry if carried out by the same contractor. Permit fees are based on the final rating of the electrical service installation.   |                                |                                |                |     |
| Less than or equal to 200A  | \$ 261                         | \$ 266                         | per permit     | No  |
| 201-400A  | \$ 401                         | \$ 409                         | per permit     | No  |
| Greater than 400A   | \$ 957                         | \$ 976                         | per permit     | No  |
| <b>Contractor Installation Permits – Other</b>  |                                |                                |                |     |
| Permit fees in this category are based on the total price paid by the client, excluding GST, for the project including all labour and materials, from any source, but excluding utilization equipment such as fixtures, heaters, motors, furnaces and heat pumps. Fees are per permit and based on an assessment of work at a site involving a single utility supply only. Additional fees and/or multiple permits are applicable if the work involves multiple sites, building units, phases of work and/or multiple utility supplies. |                                |                                |                |     |
| NOTE: Permit fees include inspections as required. Inspections for non-compliance purposes will be billed on an hourly basis. Please refer to the 'Hourly Rates' section.   |                                |                                |                |     |
| Value less than or equal to \$250   | \$ 53                          | \$ 54                          | per permit     | No  |
| \$251 to \$1,000  | \$ 93                          | \$ 95                          | per permit     | No  |
| \$1,001 to \$2,500  | \$ 161                         | \$ 164                         | per permit     | No  |
| \$2,501 to \$5,000  | \$ 261                         | \$ 266                         | per permit     | No  |
| \$5,001 to \$10,000   | \$ 400                         | \$ 408                         | per permit     | No  |
| \$10,001 to \$20,000  | \$ 655                         | \$ 668                         | per permit     | No  |
| \$20,001 to \$35,000  | \$ 957                         | \$ 976                         | per permit     | No  |
| \$35,001 to \$50,000  | \$ 1,335                       | \$ 1,362                       | per permit     | No  |
| \$50,001 to \$100,000   | \$ 1,915                       | \$ 1,953                       | per permit     | No  |
| \$100,001 to \$200,000  | \$ 2,869                       | \$ 2,926                       | per permit     | No  |
| \$200,001 to \$1,000,000<br>Fee is based on a fixed fee <u>plus</u> 0.5% of the job value as described above  | \$ 2,610                       | \$ 2,662                       | per permit     | No  |
|   | +0.5% of job value             | +0.5% of job value             |                |     |
| Job value greater than \$1,000,000<br>Fee is based on a fixed fee <u>plus</u> 0.25% of the job value as described above.  | \$ 5,218                       | \$ 5,322                       | per permit     | No  |
|   | +0.25% of job value            | +0.25% of job value            |                |     |
| <b>Multi-Permit Extra-Low Voltage / Low Energy</b>  |                                |                                |                |     |
| Multi-permit/decals sheet (25 permits non-transferrable and non-refundable) - for use only in applications with a value <i>less than or equal to</i> \$250 <b>excluding utilization equipment</b> and utilizing 30 volts or less and max. 100 VA (E.g. security alarms, central vacuum, telephone, data, audio)   | \$ 725                         | \$ 740                         | per 25 permits | No  |
| <u>Note 1:</u> Available for qualifying contractors only - please speak to your Client Services Representative or Safety Officer for criteria.  |                                |                                |                |     |
| <u>Note 2:</u> Permits are automatically invalidated after 1 year if not used   |                                |                                |                |     |
| <u>Note 3:</u> Contractor is required to provide permit details (site, work details etc.) by way of a single declaration to Technical Safety BC for all decals used every six months  |                                |                                |                |     |
| <b>Alternative energy system installation</b>   |                                |                                |                |     |
| These fees are for alternative energy systems, including <b>renewable energy systems, batteries, and generators</b> . They do not cover systems primarily intended to produce or store electricity to be used off-site, or systems that power commercial or industrial operations (e.g. pulp mills)   |                                |                                |                |     |
| Residential installation <b>with</b> other electrical work or permit (other applicable permit fees also apply)  | \$110                          | \$112                          | per permit     | No  |
| Residential installation <b>without</b> other electrical work or permit   | \$172                          | \$175                          | per permit     | No  |
| Commercial installation <b>with</b> other electrical work or permit (other applicable permit fees also apply)   | \$221                          | \$225                          | per permit     | No  |
| Commercial installation <b>without</b> other electrical work or permit  | \$283                          | \$289                          | per permit     | No  |
| <b>Permit Value Amendment</b>   |                                |                                |                |     |
| This permit is used when the contractor holds an active installation permit and the service size or job value has increased. The fee due is the difference between the original and the new permit value fee. An administration fee may apply depending on complexity.  | Variable based on permit value | Variable based on permit value | per permit     | No  |
| <b>Expiry amendment</b>   |                                |                                |                |     |
| This amendment is used to renew an expired permit (cannot be used for Multi-Permit Extra-Low Voltage / Low Power permit types)  | \$ 67                          | \$ 68                          | per permit     | No  |
| <b>Permit Amendment Review</b>  |                                |                                |                |     |
| Assessed when an installation commenced without a permit or when an installation value exceeds the declared value   | \$ 232                         | \$ 237                         | per permit     | Yes |

**TECHNICAL SAFETY BC  
FEE SCHEDULE: ELECTRICAL**

| DESCRIPTION  | Effective<br>January 1, 2019 | Effective<br>January 1, 2020 | UNITS       | GST |
|--|------------------------------|------------------------------|-------------|-----|
| <b>ANNUAL OPERATING PERMITS</b>  |                              |                              |             |     |
| Electrical operating permit fees are based on a fixed fee per site up to the first 300kVA of <u>service capacity</u> . Each site is assessed an additional charge for each kVA over the 300kVA service capacity threshold up to the maximum value capped by site category. <b>(Rated service capacity to be based up on the manufacturer's nameplate rating of the main service switch or main transforming equipment.)</b><br>Permit fee = Base fee per site + fee per kVA over 300kVA  |                              |                              |             |     |
| <b>General site – base fee per site</b><br><br>Category broadly based on a location defined by a geographic boundary or specifically, each service connection. Applicable for all clients not classified as either an Electrical Utility or a regional entity defined under a Distributed site.<br><br><u>Note 1:</u> Fee is calculated on the total kVA for all services at a site<br><u>Note 2:</u> Fees are capped at the following amounts per year:<br>2017 Fee is capped at \$2,810 per site (Applies to annual fee)<br>2018 Fee is capped at \$2,865 per site (Applies to annual fee)<br>2019 Fee is capped at \$2,920 per site (Applies to annual fee)<br>2020 Fee is capped at \$2,980 per site (Applies to annual fee) | \$ 134                       | \$ 137                       | per permit  | No  |
| <b>Distributed site – base fee per site</b><br><br>Category broadly based on location(s) defined by a management boundary – electrically separate but 'non-electrical process' or management connected. Applicable only to regional entities such as municipalities, school districts and regional districts.<br><br><u>Note 1:</u> Fee is calculated on the total kVA for all services at a site  | \$ 69                        | \$ 70                        | per permit  | No  |
| <b>Utility (Contiguous site) – base fee per site</b><br><br>Category broadly based on location(s) defined by a process boundary such as an electrical distribution system with interconnected components.<br><br><u>Note 1:</u> Fee is calculated on total kVA system capacity<br><u>Note 2:</u> Fees are capped at the following amounts per year:<br>2017 Fee is capped at \$562,750 (Applies to annual fee)<br>2018 Fee is capped at \$574,010 (Applies to annual fee)<br>2019 Fee is capped at \$585,490 (Applies to annual fee)<br>2020 Fee is capped at \$597,200 (Applies to annual fee)  | \$ 291                       | \$ 297                       | per utility | No  |
| <b>Additional charge for each kVA over 300kVA</b>  | \$ 0.11                      | \$ 0.11                      | per kVA     | No  |
| <b>Private distribution system</b><br><br><u>Note 1:</u> Fee is applicable for non-utility overhead or underground primary lines only. Not required if covered by another operating permit.<br><u>Note 2:</u> Operating permit is valid for 5 years  | \$ 332                       | \$ 339                       | per permit  | No  |
| <b>Temporary Operating Permit (required for equipment greater than 5kW)</b>  |                              |                              |             |     |
| <b>Single Event</b>  |                              |                              |             |     |
| Includes single set-up of equipment  |                              |                              |             |     |
| Event up to 3 days   | \$ 166                       | \$ 169                       | per permit  | No  |
| Event 4 to 30 Days   | \$ 332                       | \$ 339                       | per permit  | No  |
| Event 31-90 Days   | \$ 499                       | \$ 509                       | per permit  | No  |
| Event 91-180 Days  | \$ 665                       | \$ 678                       | per permit  | No  |
| <b>Multi-Event</b>   |                              |                              |             |     |
| Includes set-up of equipment multiple times at either a single or multiple locations at different times  |                              |                              |             |     |
| Event up to 30 days  | \$ 499                       | \$ 509                       | per permit  | No  |
| Event 31 to 90 Days  | \$ 665                       | \$ 678                       | per permit  | No  |
| Event 91-180 Days  | \$ 831                       | \$ 848                       | per permit  | No  |
| Event 181-365 Days   | \$ 1,163                     | \$ 1,186                     | per permit  | No  |
| <b>Temporary Operating Permit for Construction Service</b><br>Permit is valid for a maximum of 12 months   | \$ 67                        | \$ 68                        | per permit  | No  |
| <b>PRODUCT APPROVALS</b>   |                              |                              |             |     |
| <b>Electrical Product Approval</b><br><br>Minimum 2 hour charge. Each additional hour charged at the hourly rate   | Professional Services Rate   | Professional Services Rate   | per hour    | Yes |
| <b>Electrical approval for a used manufactured home, used factory-built structure or a used recreational vehicle (SILVER LABEL)</b>  | \$ 199                       | \$ 203                       | per unit    | Yes |
| <b>MISCELLANEOUS</b>   |                              |                              |             |     |
| <b>Re-assessment Fees</b>  |                              |                              |             |     |
| Assessed in cases where a non-compliance is found during the final inspection and/or when a contractor does not respond to the non-compliance or expiry notification within the specified time as directed by the Safety Officer   |                              |                              |             |     |
| <b>Re-assessment</b><br><br>This fee is applied in cases where a re-assessment is performed for a previous non-compliance found on any inspection and the contractor has not provided evidence that the issue has been remedied. Additionally, re-assessment fees may be applied in cases where the permit has expired and the contractor has not responded to the expiry notification. Re-assessments are charged at the equivalent of one hour at the standard Administration rate. If as a consequence of this re-assessment, the Safety Officer determines a re-inspection is required, the re-inspection fee is applied as below  | \$ 67                        | \$ 68                        | per permit  | Yes |

**TECHNICAL SAFETY BC  
FEE SCHEDULE: ELECTRICAL**

| DESCRIPTION  | Effective<br>January 1, 2019 | Effective<br>January 1, 2020 | UNITS    | GST |
|--|------------------------------|------------------------------|----------|-----|
| <b>Contractor re-inspection</b><br>This fee is applied when an assessment of an expired permit or a previous non-compliance found on any inspection results in the Safety Officer requiring a further inspection to be performed. Re-inspections are charged at the hourly Safety Services rate as outlined below (minimum one hour charge).   | Safety Services Rate         | Safety Services Rate         | per hour | Yes |
